Management Officer

16 December 1949

Executive

Training Organization

1. The training organization and its personnel staffing recommended in your memo of 5 December have been approved by the Director.

2. Please note the comment, "Please hold until reorganization settled," by the Director on memo from the Executive to the Director on the above subject dated 12 December 1949. The Director desires that the organization be established and that we proceed with authorized personnel staffing, but that action on a single command channel be deferred pending decision from the National Security Council relative to whether or not OFC and OSO will be combined. This decision is expected in January 1950.

3. In view of the above, the current combined committee type of control is temporarily authorized with the training organization being responsible to the Assistant Directors for Special Operations and Policy Coordination jointly for such temporary period as may elapse before receipt of the Security Council decision referred to above. When such decision has been received, you will be informed and further study and final determination made as to appropriate supervisory measures.

 Captain, USN
